

Robust design

Extreme conditions resistance

Long service life

Low operating costs

FlexiDesign
500–10 000 kg

- condensation of waste steam without coolant
- adaptation to climate conditions

CONDENSATION

ISO 9001 • ISO 3834-2

AIR CONDENSER **VKM**

Made of quality **stainless**
and **carbon** steels or their combination

Hourly output **500 - 10 000 kg** of condensate

Easy **cleaning**
thanks to sophisticated design

Spare parts and consumables
for the **entire service life**

Repair and support **services**

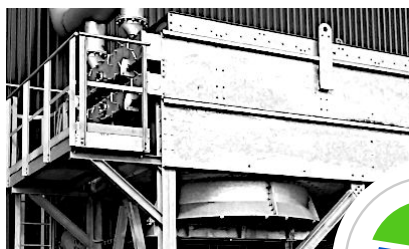

Tradition and long experience in the industry

Made in the **Czech Republic** from
high quality **European materials**

Application:

- exhaust vapour**
versatile use for liquefaction of various vapours,
such as by-products of bio-waste drying,
in the food, chemical and pharmaceutical industries
- creation of vacuum in the system**
